

## Pointers in C

1. Write a program in C to find the factorial of a given number using pointers.
2. Write a program in C to compute the sum of two numbers in using pointers.
3. Write a program to find largest among three numbers using pointers.
4. Write a program to find average of five numbers using pointers.
5. Check the programs in the zip file attached. Predict the output first, and then execute the program and see the output. Write how does the code work
